

I would like to oppose the FCC petition of the Indiana's Telephone Privacy law. If I wanted a bunch of phone calls bothering me all day, I am still getting calls before 8a.m. and as late as 10.p.m. I would have my number listed in the phone book. They are irritating and a pain in the butt. I am on the nocall list and still have as many as 8 or 10 calls a day. Instead of letting more calls through, try and reduce some of these irritating calls.

Thank You

Cathy McLain
